## A Conference about the **Bible** and its **interpretation**

### Have you ever wondered:

- Why should we trust the Bible?
- How did we get it in the first place?
- What claims does it make about itself?
- How should we understand it?
- What can Luther teach us about biblical interpretation?
- What place should human reason play in interpreting the Bible?
- How have modern scholars approached the Bible?
- How should we evaluate modern biblical criticism?

We hope to provide for you answers to these and many other important questions.
